CONTENTS OF VOLUME 67

JANUARY 1952. NUMBER 1

	PAGE
Severe Sensory Changes, and Trophic Disorder, in Peroneal Muscular Atrophy (Charcot-Marie-Tooth Type). A. C. England, M.D., and D. Denny-Brown, M.D., Boston.....	1
Dynamic Concepts of Migraine: A Character Study of One Hundred Patients. A. R. Furmanski, M.D., Van Nuys, Calif.....	23
Fatalities in Insulin Therapy of the Psychoses: Analysis of Eight Cases. A. E. Schefflen, M.D.; E. R. Reiner, M.D., and W. W. Jetter, M.D., Boston.....	32
Myoclonus of Muscles of the Eye, Face, and Throat. Morris B. Bender, M.D.; Morton Nathanson, M.D., and Gustave G. Gordon, M.D., New York.....	44
Changes in Phosphatase Activity of Serum and Urine After Shock Therapy. Mark D. Altschule, M.D., and Barbara H. Parkhurst, B.S., Boston.....	59
Blood Glutathione Level in Mental Disease Before and After Treatment. Mark D. Altschule, M.D.; Elaine P. Siegel, and Dorothy H. Henneman, M.D., Boston.....	64
Does Nystagmus Occur in Lesions of the Cervical Cord? Carl B. Booth, M.D., Chestnut Hill, Mass.....	69
Nonaphasic Misnaming (Paraphasia) in Organic Brain Disease. Edwin A. Weinstein, M.D., and Robert L. Kahn, M.A., New York.....	72
Results of Treatment of Schizophrenia in a State Hospital: Changing Trends Since Advent of Electroshock Therapy. George E. Currier, M.D.; Catherine Cullinan, M.D., and David Rothschild, M.D., Worcester, Mass.....	80
Meningococcic Meningitis: Incidence of Residua Following Serum, Sulfonamide, and Sulfonamide-Penicillin Therapy. Alexander T. Ross, M.D., Indianapolis.....	89
Abstracts from Current Literature.....	103
Society Transactions:	
Boston Society of Psychiatry and Neurology.....	117
New York Academy of Medicine, Section of Neurology and Psychiatry, and New York Neurological Society.....	121
News and Comment.....	129
Obituaries:	
Samuel Warren Hamilton, M.D.....	131
Book Reviews.....	133

FEBRUARY 1952. NUMBER 2.

SYMPOSIUM ON BRAIN AND MIND

Notes on Cortical Evolution. Gerhardt von Bonin, M.D., Chicago.....	135
An Ascending Reticular Activating System in the Brain Stem. H. W. Magoun, Ph.D., Los Angeles.....	145
Corticofugal Projections to the Brain Stem. Herbert Jasper, M.D.; Cosimo Ajmone-Marsan, M.D., and Julius Stoll, M.D., Montreal, Canada.....	155
On the Nature and Locus of Mind. Stanley Cobb, M.D., Boston.....	172
Memory Mechanisms. Wilder Penfield, M.D., Montreal, Canada.....	178
Special Article:	
Consciousness Reconsidered. Francis Schiller, M.D., San Francisco.....	199
Regular Articles:	
Blood Eosinophilic Leucocytes in Mental Disease. Mark D. Altschule, M.D.; Elaine P. Siegel; Rose Marie Restaino, and Barbara H. Parkhurst, B.S., Boston.....	228

FEBRUARY—Continued

	PAGE
The Cerebellar Hemangioblastomas: Review of Fifty-Three Cases, with Special Reference to Cerebellar Cysts and the Association of Polycythemia. Fritz Cramer, M.D., New York, and Major Warren Kimsey, Medical Corps, Army of the United States...	237
Abstracts from Current Literature.....	253
News and Comment.....	266
Obituaries:	
Donald Snell McEachern, M.D.....	267

MARCH 1952. NUMBER 3.

Tumors of the Medulla Oblongata. Irving S. Cooper, M.D.; James W. Kernohan, M.D., and Winchell McK. Craig, M.D., Rochester, Minn.....	269
Neuropsychiatric Aspects of Cushing's Syndrome. William H. Trethowan, M.B., M.R.C.P., D.P.M., and Stanley Cobb, M.D., Boston.....	283
Relative Effects of Occipital and Peripheral Blindness upon Intellectual Functions. Jacob Levine, Ph.D., Newington, Conn.....	310
Effectiveness of Chordotomy in Phantom Pain After Amputation. James C. White, M.D., and William H. Sweet, M.D., Boston.....	315
Word Deafness and Wernicke's Aphasia: Report of Cases and Discussion of the Syndrome. Dewey K. Ziegler, M.D., Boston.....	323
Lipids and Proteins of Plasma in Patients with Diseases of the Nervous System. Albert A. Fisk, M.D.; Alfred Chanutin, Ph.D., and Walter O. Klingman, M.D., Charlottesville, Va.....	332
Experimental Chronic Epilepsy in the Monkey: Effect of Ablation of Contralateral Precentral Motor Cortex. L. M. Kopeloff, Ph.D.; J. G. Chusid, M.D.; B. L. Pacella, M.D., and N. Kopeloff, Ph.D., New York.....	336
Statistical Control Studies in Neurology: II. The Pronator Sign of Wilson. Nathan Savitsky, M.D., and Jacques M. Madonick, M.D., New York.....	344
Electromyogram from Orbicularis Oculi in Normal Persons and in Patients with Myasthenia Gravis. Stella Y. Botelho, M.D.; Charles F. Deaterly, M.D., and Julius H. Comroe Jr., M.D., Philadelphia.....	348
Effects of Histamine on Cerebral Hemodynamics and Metabolism. R. W. Alman, M.D.; Marie Rosenberg, A.B., and Joseph F. Fazekas, M.D., Washington, D. C.....	354
Electrical Recordings of Normal and Abnormal Eye Movements Modified by Drugs. Philip S. Bergman, M.D.; Morton Nathanson, M.D., and Morris B. Bender, M.D., New York.....	357
Effects of Subtotal Lesions of Frontal Granular Cortex on Delayed Reaction in Monkeys. Robert A. Blum, Ph.D., Orange Park, Fla.....	375

INDEX TO VOLUME 67

The asterisk (*) preceding the page number indicates an original article. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews, Obituaries, and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O, and S, respectively.

Abnormalities and Deformities: See also under names of organs and regions

time of occurrence of complication of pregnancy as causal factor of congenital anomalies [abstract], 406
x-ray induced developmental abnormalities in mouse and their use in analysis of embryological patterns: external and gross visceral changes [abstract], 255

Abscess: See under names of organs and regions, as Spinal Cord

Acetylcholine: See Choline and Choline Derivatives

Acetylcholinesterase: See Cholinesterase

ACTH: See Corticotropin

Actinomycosis

spinal meningitis due to *Actinomyces bovis*, treated with penicillin and streptomycin [abstract], 843

Adams, R. D.

Arterial anastomoses of human brain and their importance in delimitation of infarcts, 119
Further observations on acute necrotizing hemorrhagic encephalopathy, 119

Adolescence

drug addiction in [Zimmering & Toolan], 556

Adrenal Preparations: See Cortisone; Epinephrine

Adrenals

pheochromocytoma, alterations of cerebral functions in [abstract], 847

Adrenocorticotropin: See Corticotropin

Adverse Syndrome: See Movements, disorders

Age, Old: See Old Age

Agnosia

visual-spatial, associated with lesions of right cerebral hemisphere [abstract], 579

Air

pressure: fatalities resulting from exposure to simulated high altitudes in decompression chambers [abstract], 706

Air Force, United States

commissions in medicine, 584

Aimone-Marsan, C.

Corticofugal projections to brain stem, *155

Alcohol

ethyl, and amobarbital (amytal®) sodium, combined use for ambulatory narcoanalysis [Miller], *620

ethyl, role in biological synthesis of cholesterol [abstract], 389

Alcoholism

acute, in mental patients treated with insulin [abstract], 261

acute, pathology [abstract], 109

chronic, new method of treatment [abstract], 716
gambling, and superstition: psychodynamics of triad [Galdston], 124

personality structure in relation to tetraethylthiuramdisulfide (antabuse®) therapy [abstract], 261

Allergy

allergic etiology of inflammatory diseases of nervous system [abstract], 109

experimental studies in allergic encephalomyelitis: prevention and protection [abstract], 107

Alman, R. W.

Effects of histamine on cerebral hemodynamics and metabolism, *354

Alopecia

areata as conversion symptom [abstract], 261

Altitude

high, simulated, in decompression chambers, fatalities resulting from [abstract], 706

Altschule, M. D.

Blood eosinophilic leucocytes in mental disease, *228

Blood glutathione level in mental disease before and after treatment, *64

Changes in phosphatase activity of serum and urine after shock therapy, *59

Effect of phlorizin on excretion of inorganic phosphate in psychotic patients, *754

Alvermann, E.

Trihexyphenidyl (artane®), stramonium, and non-chemotherapy of paralysis agitans, *462

American Academy of Forensic Sciences, 266

American Board of Psychiatry and Neurology

candidates certified by, 582

examination, 583

American Electroencephalographic Society, 721

American Neurological Association, 722

American Psychosomatic Society, 856

Amobarbital: See Barbitol and Barbitol Derivatives

Amputation

effectiveness of chordotomy in phantom pain after, [White & Sweet], *315

Amyotonia Congenita: See Myatonia

Amyotrophy: See Atrophy, muscular; Sclerosis, amyotrophic lateral

Amytal®: See Barbitol and Barbitol Derivatives

Androgens

testosterone propionate treatment of catabolic effect of trauma of spinal cord [abstract], 116

Anesthesia: See also Narcoanalysis; Nerves, blocking
spinal: sixth-nerve palsy after [abstract], 398

Aneurysm

arteriovenous, of brain [abstract], 709

cerebral, with negative arteriogram [abstract], 110
of descending thoracic aorta, compression of spinal cord by [abstract], 394

dissecting, of aorta: 2 cases with unusual onsets [abstract], 843

Intracranial: arteriography and carotid artery ligation in [abstract], 111

Intracranial: clinicopathologic considerations of oculomotor-nerve regeneration and intracerebral hemorrhage [Levin], *771

Intracranial: subarachnoid hemorrhage, intracerebral hemorrhage, and [Dekaban & McEachern], *641

of ophthalmic artery: nonpulsatile unilateral exophthalmos caused by [abstract], 113

Angelucci, R. J.

Effects of frontal lobotomy on morphine-abstinence syndrome in man: experimental study, *510

Angiography, Cerebral: See Brain, blood supply

Angioma

arteriovenous: optic atrophy caused by: report of case [Band], *655

Anomalies: See Abnormalities and Deformities; and under names of organs and regions

Anorexia Nervosa

schizophrenia and [abstract], 263

Anoxia: See Oxygen, deficiency

Antabuse®: See Tetraethylthiuramdisulfide

Antibiotics: See Penicillin; Streptomycin

Anticonvulsants: See Convulsions

Antigens and Antibodies

antibodies and hypersensitivity in encephalitis produced experimentally by injection of homologous brain suspensions [abstract], 702

- Antigens and Antibodies.** Continued
use of antibody to inhibit a particular step in multienzyme system [abstract], 704
- Anxiety:** See also Neuroses and Psychoneuroses
associated with anticipation of pain: effects of morphine [Bill & others], *612
circulatory dynamics before and after exercise in subjects with and without structural heart disease during anxiety and relaxation [abstract], 562

INDEX TO VOLUME 68

The asterisk (*) preceding the page number indicates an original article. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews, Obituaries, and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O, and S, respectively.

Abramson, L. S.

Gerstmann symptoms following electroshock treatment, *248

Abscess: See under names of organs and regions, as Brain

Acetylcholinesterase: See Cholinesterase

Acids

fatty, endogenous, of rat tissues, oxidation in vitro [abstract], 708

ACTH: See Corticotropin

Adams, J. E.

Frontal lobotomy in schizophrenic patient with advanced hydrocephalus, *460

Adenine

compounds, effects on electrocortical activity [abstract], 709

Adenoma

pituitary, abscess formation in [abstract], 856
pituitary, chromophobe, apoplexy producing syndrome of middle cerebral artery thrombosis: case report [abstract], 854

Adrenal Preparations: See Cortisone; Desoxycorticosterone; Epinephrine

Adrenalin*: See Epinephrine

Adrenals

cortex: function in multiple sclerosis [Garcia-Reyes & others], *776

Adrenocorticotrophic Hormone: See Corticotropin

Adson, A. W.

Communicating hydrocephalus from diffuse meningeal tumor: report of 2 cases with increased intracranial pressure treated by use of polyethylene tube, *329

Age, Old: See Old Age

Agnosia: See also Anosognosia

thought as form of sensation, and agnosia of thought [Brickner & Barnum], *466

Alajouanine, Theophile A.

honorary degree conferred on, 864

Alcoholism

blood eosinophiles in alcoholic states [Oltman & Friedman], *536
chronic: tetraethylthiuramdisulfide (antabuse*) treatment [Brunner-Orne], 698
chronic: vitamin therapy in [Trulsson & others], 698

Allergy

encephalopathy with papilledema: report of case [Devanney & Shea], *791

Altschule, M. D.

Blood clotting in patients with mental diseases before and after treatment, *561

Blood ketone concentration in patients with mental and emotional disorders, *566

Effect of breath holding on arterial pressure in patients with mental and emotional disorders, *318

Serum cholinesterase activity in mental disease: effect of shock therapy, *645

American Academy of Forensic Sciences, 725

American Association for Advancement of Science, 864

American Board of Psychiatry and Neurology
candidates certified by, 375

examination and changes in policy, 861

American Neurological Association, 162

American Psychiatric Association, 725, 864

American Psychosomatic Society, 725

Amytal*: See Barbitol and Barbitol Derivatives

Androgens

testosterone propionate as nitrogen-sparing agent after spinal cord injury [abstract], 567

Anesthesia

spinal, saddle-block, paralysis with, in obstetrics [Rosenbaum & others], *783

Aneurysm

arterial, sacular: arteriographic demonstration [abstract], 418

intracranial: diagnosis and treatment [List], 842

Angioma

arteriovenous, of brain [abstract], 283

arteriovenous, optic atrophy caused by: report of case [Band], 404

Anosmia: See Smell

Anosognosia

denial of illness: occurrence in 100 consecutive cases of hemiplegia [Nathanson & others], *380

denial syndromes, study [Guthrie & Grossman], *362

Anoxia: See Oxygen, deficiency

Antabuse*: See Tetraethylthiuramdisulfide

Antibiotics: See Chloramphenicol; Penicillin; Streptomycin

Anticonvulsants: See Convulsions

Apnea

effect of breath holding on arterial pressure in patients with mental and emotional disorders [Altschule & Shah], *318

Apoplexy: See Brain, hemorrhage

Arterenol

and epinephrine, action on tremor in Parkinson's disease [abstract], 851

Arteries: See also Aneurysm; Hypertension

carotid: diagnostic value of arteriography in 2 atypical cases of subdural hematoma [abstract], 714

carotid, internal, ligation for aneurysmal lesions of circle of Willis [abstract], 296

carotid, internal, thrombosis [abstract], 160

cerebral: See Brain, blood supply

Association for Research in Nervous and Mental Disease, 576

Associations: See Societies

Astrocytoma

Grade III associated with profuse subarachnoid bleeding as its first manifestation [abstract], 716

Ataxia

hereditary: three cases (siblings), with one autopsy report [Joseph], 402

Avitaminosis: See under Vitamins

Awards

Isaac Ray, 725

Samuel W. Hamilton, 292

Bakay, L.

Studies on blood-brain barrier with radioactive phosphorus: hypophysis and hypothalamus in man, *629

Baker, A. B.

Poliomyelitis: hypothalamus, *16
Poliomyelitis: pons, *1

BAL: See Dimercaprol**Band, R. I.**

Optic atrophy caused by arteriovenous angioma: report of case, 404

Barbital and Barbital Derivatives

electroencephalography of newborn: brain potentials of babies born of mothers given secobarbital* [abstract], 152
ethyl (3-hydroxyisobutyl) barbituric acid as principal metabolite of amytal* [abstract], 708
postencephalitic Parkinsonism following intravenous hexobarbital anesthesia [abstract], 869

Barnum, A. S.

Thought as form of sensation, and agnosia of thought, *466

Behavior

deficits following diencephalic lesions [abstract], 850

Bell's Palsy: See Paralysis, facial

Benadryl*: See Diphenhydramine

Bender, M. B.

Exosomesthesia or displacement of cutaneous sensation into extrapersonal space, *481

Benton, A. L.

Gerstmann symptoms following electroshock treatment, *248

Bergman, P. S.

Dental illness: occurrence in 100 consecutive cases of hemiplegia, *380

Bigelow, N. H.

Peripheral-nerve lesions in hemorrhagic diseases, *819

Blackburn, L. I.

Studies of cerebral circulatory functions following intravenous administration of procaine hydrochloride, *815

Blepharospasm: See Eyelids, spasm

Blood: See also Eosinophiles

calcium: electroencephalogram in hypocalcemia: idiopathic hypoparathyroidism and pseudohypoparathyroidism [Wise & Hart], *78
cholesterol: changes in schizophrenic patients during insulin therapy [Goodman & Kanter], *534
cholesterol: concentration in serum in multiple sclerosis [Chiavacci & Sperry], *37
cholinesterase activity in mental disease: effect of shock therapy [Ravin & Altschule], *645
clotting in patients with mental diseases before and after treatment [Altschule & others], *561
fats and lipids: influence of low fat diet on blood lipid levels in health and multiple sclerosis [abstract], 276
glutathione, lactic acid, and pyruvic acid relationships in schizophrenia [Easterday & others], *48
ketones: concentration in patients with mental and emotional disorders [Klitay & Altschule], *506
phosphorus, lipid, concentration in serum in multiple sclerosis, *37
sugar: hereditary myokymia associated with hypoglycemia and disturbed thyroid function [Sheaff], *236
sugar: sleep paralysis successfully treated with insulin hypoglycemia [Weitzner], *835

Blood Pressure

effect of changes in systemic venous pressure on cerebrospinal fluid pressure [Ryder & others], *175

high: See Hypertension

Blood-Brain Barrier: See Hemoencephalic Barrier
